

*Eastern Elegance*  
Bamboo Flooring

**Solid Horizontal Carbonated**

**Product Specifications**

Composition:	100% natural renewable Mau Zhu (Hairy) bamboo	Transition Moldings	
Construction:	Solid 3-ply Horizontal cross core	Quarter Round	3/4" x 3/4" x 96"
Size:	5/8" x 3-3/4" x 38"	6AWBB1	
	5/8" x 3-3/4" x 74"	Reducer	5/8" x 2" x 72"
Manufacturing SKU:	38" SHCF38	6AWBH13	
	74" SHCF74	Square Nose	7/8" x 1-9/16" x 72"
Packaging:	38" 23.81 square feet per carton	6AWBH14	
	74" 27.47 square feet per carton	Stair Nose	1" x 3-3/8" x 72"
Curing:	Kiln dried to 6-9% moisture content	6AWBH16	
Treatment:	Mildew and insect proof	T-Molding	5/8" x 2" x 72"
Finish:	Aluminum Oxide 7-coat finishing process	6AWBH15	
Flammability:	Passes Class I Flammability Standards	Threshold	7/8" x 2-1/8" x 72"
Warranty:	25 Year Residential Warranty	6AWBH18	
	5 Year Light Commercial Warranty		
Janka Hardness			
Scale Rating:	1790 (average)		
Certification:	Factory is ISO9001 and ISO14001 Certified		
Adhesive:	E-1 standards for formaldehyde emissions		

**Environmental Information**

Environmentally friendly and a high-yield 100% rapidly renewable resource, releasing 35% more oxygen than equivalent stands of trees.

- Bamboo is derived from a plant, not a tree, called Mao Shu or "Hairy" bamboo, the hardest of all tall grass species.
- Bamboo is the fastest growing canopy for the re-greening of degraded lands.
- Bamboo stands (forests) mature in three years, and regenerate without the need for replanting.
- Harvested by hand within five years, the natural canopy and canopy inhabitants are not disturbed.
- Naturally resists odor, bacteria, mildew, and insects.
- Second only to concrete for strength and ranked first for stiffness (compared on a mass-per-volume basis to concrete, steel, and wood).
- Compared to hardwood bamboo creates a greater yield of raw material usage.
- Bamboo is a rapidly renewable resource and adhesives used in the manufacturing process have virtually no formaldehyde.
